Cover letter - Application for Project Grand Path Internship

Dear Amanda Clouse,

I hope I am not late to apply for the **Project Grand Path Internship for Summer 2025**. I am Pushpa Pandey, a graduate student in Applied Computer Science at Grand Valley State University from Nepal and my estimated graduation month is Dec 2025. I was always seeking opportunities like these as I am eager to bring my technical skills, problem-solving mindset, and collaborative approach to your interdisciplinary team.

With experience in frontend development, UI/UX design, and software development, I have worked on diverse projects, including a hybrid messaging platform, chatbot integration, and content management systems. My background in React, Vue, Node.js, and various design tools like Figma aligns well with the responsibilities of this internship. Additionally, my ability to work in agile environments, adapt to evolving challenges, and communicate effectively with cross-functional teams makes me a strong candidate.

I am particularly excited about the opportunity as you have mentioned in the description to engage myself in design thinking, prototyping, and collaborative problem-solving alongside a diverse group of interns. I thrive in dynamic environments and look forward to contributing my technical expertise while learning from others.

I would love the opportunity to discuss further. Please let me know if you need any additional information.Thank you for your time and consideration. I look forward to hearing from you!

Best regards,
Pushpa Pandey
